

Wentao Zhu, PhD
Associate Professor
Department of Applied Chemistry
China Agricultural University
No. 2 Yuanmingyuan West Road
100193 Beijing, China

Dear Dr. Zhu,

We would like to take this opportunity to invite you as a Visiting Scholar to my laboratory in the College of Health Solutions, Arizona State University, from January 13 to February 23, 2020. I will be very happy to host you this coming Spring.

During your visit, we will discuss more details about the potential collaborations in several topics, including determinations of metabolic changes in complex samples, applications of metabolomics in the field of toxicology, precision medicine and multi-omics research in diagnosis and preventive medicine, etc. You will also have the chance to learn new techniques in metabolic flux analysis. I will show you my lab and our university in order to enhance your understanding about our capabilities and commitments. I will be more than happy to assist you for all the necessary paperwork for your visit to US!

Looking forward to meeting you this coming Spring!

Sincerely,

Haiwei Gu, PhD
Assistant Professor
