May 17, 2018

Dear Dr. Lang,

On behalf of the Organizing Committee, I am pleased to invite you to participate in the Focus Program on Poisson Geometry and Physics (June 1 to July 31, 2018) to be held at the Fields Institute in Toronto, Ontario, Canada. Updated information on program activities is available at <http://www.fields.utoronto.ca/activities/17-18/poisson>.

The Fields Institute supports as many participants as possible with limited resources. **To guarantee this offer of funding, we ask you to please confirm your attendance by registering no later than June 1, 2018** at www.fields.utoronto.ca/cgi-bin/register?form_selection=poisson.

For your participation in the program, we are pleased to reimburse your travel, accommodation and per diem expenses to a maximum of **CAD\$1000**. You may wish to extend your visit if your schedule permits. The Fields Institute reimbursement instructions and claim form are attached and can be found at www.fields.utoronto.ca/resources/reimbursement-claims. Please ensure that you read these carefully before making travel arrangements. Please retain all receipts, boarding passes and other documentation of expenses to support your reimbursement claim. If you have any questions about this, please contact our Program Coordinator at: bcamp@fields.utoronto.ca.

It is standard for Fields Institute visitors to make and pay for their own housing arrangements. The Institute's Hotels and Housing webpage will provide you with information about housing choices for your visit (www.fields.utoronto.ca/resources/housing.html).

It may be necessary for you to contact a Canadian Consulate to make arrangements for your visit and, if required, obtain the necessary travel documents to be permitted entry to Canada. For visa information see <http://www.cic.gc.ca/english/visit/visas.asp>. Should you accept this letter of invitation and need a letter in support of your visa application we would be pleased to provide one.

The Fields Institute receives funding from public and private sources. To help us demonstrate the impact of our programs, we request that you acknowledge the support of the Fields Institute in any publications that result from your visit and that you send citation for these publications to programs@fields.utoronto.ca. Please also keep us informed of significant advances in your work as well as collaborations resulting from your stay.

With best wishes for a productive and enjoyable visit,

Ian Hambleton
Director, The Fields Institute
Britton Professor of Mathematics, McMaster University

On behalf of the Organizing Committee:

Marco Gualtieri - University of Toronto
Eckhard Meinrenken - University of Toronto
